TELEPHONE EXCHANGE SERVICE

TEL-TOUCH CALLING

A. GENERAL

1. Tel-Touch calling rates are not applicable to 1-Party Business and 1-Party Residence lines or to other services billed at 1-Party Business or Residence rates.
2. Tel-Touch calling provides for dialing a telephone by means of push buttons transmitting alternating currents in lieu of a rotary dial.
3. Tel-Touch calling service is offered at the rates set forth following. The service is available only where the Telephone Company facilities have been arranged for Tel-Touch Calling. It is not necessary that all instruments on a line be equipped for Tel-Touch calling.

B. CHARGES

1. The charges indicated below are in addition to the regular charges for the class of service with which Tel-Touch calling is associated.

	<u>Monthly Charge</u>	<u>Installation, Move or Change Charge</u>
Business/Coin Services (Excluding 1-Party Business services), Per Line	\$2.50	See Tariff MPSC No. 1
PBX Systems Trunk, per line	\$2.50	See Tariff MPSC No. 1

Issued: August 17, 2010

Effective: August 18, 2010

TEL-TOUCH CALLING

C. CHANGES

1. Periodically promotional offerings may be made to encourage customers to subscribe to Tel-Touch Calling. Such promotional offerings are limited to no more than one sixty day period every twelve months. During this promotional offering the station handling charge and line connection charge will be waived.

TELEPHONE EXCHANGE SERVICE

GROUP ALERTING SERVICE

A. GENERAL

1. This system consists of special equipment installed in the Telephone Company's central office arranged to simultaneously place a distinctive steady ring on existing subscriber lines when an access number is called.
2. As each called number answers, it is cut-through to the calling party as a conference connection.
3. If any of the called telephone lines are busy, a ringing tone is applied as a signal and the equipment "camps on" and rings the line as soon as the line becomes idle.
4. Any connected line can be arranged to hold the connection so that messages can be repeated in case the calling party hangs up.
5. Since removal of the handset from the switchhook of any station on a party line removes the ringing on that line, individual lines are recommended for the maximum benefit from this system.
6. The Telephone Company will undertake to advise the proper authority in case of the discontinuance of service to any telephone associated with the system.
7. The Telephone Company assumes no liability in the event of failure of the system, and assumes no responsibility for testing the system.

B. RATES AND CHARGES - Carrying Charge Method

1. Group Alerting Service equipment can be furnished at charges based upon the installed cost of the equipment and the annual carrying charge of the Company.
2. The installed cost of the equipment includes the cost of the equipment and materials used on at the job plus the cost of the installation including engineering, labor, supervision, transportation and any other items chargeable to the capital accounts.
3. Annual carrying charges consist of the following:
 - a. Maintenance expense.
 - b. Depreciation on the installed cost of the equipment based upon the anticipated useful service life of the equipment,

GROUP ALERTING SERVICES

B. RATES AND CHARGES (Continued)

3. Annual carrying charges consist of the following: (continued)
 - c. Administration, taxes, commercial, traffic and other operating expenses.
 - d. A reasonable return on the investment based on the installed cost of the equipment.
 - e. Any other specific items of expense that may be associated with the equipment provided.
4. The annual carrying charges to be used in computing the rates is 40%.

MILEAGE AND CHANNEL CHARGES

B. CHARGES (Continued)

3. c. Mileage Measurements

- (1) Measurements are made directly between the service terminal locations except in the case of extensions stations where the extension station location and the main station location are served from the same central office, in which case the following treatment applies:
- (2) Extension station in same block as the serving central office
\$.80 per channel, per month.
- (3) Extension station in different block than central office:
Measurements are made between the central office location and the extension location, and between the extension station location and the main station location. The measurement producing the lower charge is used.

4. Interbuilding Channels - for key stations of the same system in a different building within standard operating limits

DIRECTORY LISTINGS

A. GENERAL

The following applies to light faced listings in the white pages (alphabetical section of the directory).

1. Only information necessary to identify the customer is included in these listings.
2. The Telephone Company may use abbreviations in listings when, in its judgment, the clearness of the listing or the identification of the subscriber is not impaired.
3. The Telephone Company may reject a residence listing which is judged to be business or advertising. The Telephone Company may reject a listing which it judges to be objectionable or fictitious and contrived.
4. Special arrangement of names designed to secure a preferential position in the alphabetical list or listings which otherwise are objectionable are not acceptable.
5. A name made up by adding a term such as Company, Shop Agency, Works etc to the name of a commodity or service will not be accepted as a listing unless the subscriber is legally doing business under that name.
6. Listing charges date from the day the time it is available in directory assistance and continue until the expiration date of the printed directory in which they appear.
7. Incoming calls to non-published service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. In the absence of willful misconduct, no liability for damages arising from publishing the telephone number of a non-published service customer in the directory or disclosing a non-published number to any calling party shall attach to the Company and where such number is published or disclosed by a Company employee, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such non-published listing service.
8. The Company reserves the right to forward the name, address and telephone number of non-published telephone number service customers to government agencies authorized by ordinance to establish E911 service and/or subscribing to or providing E911 service.
9. Non-published directory service telephone numbers associated with the line used by the calling party to place outgoing calls may be forwarded to subscribers of calling number ID.

DIRECT INWARD DIALING

DIRECT INWARD DIALING (DID) SERVICE

A. GENERAL

1. DID service permits calls incoming to a PBX or other customer premises equipment to reach a specific station line without the assistance of an attendant.
2. The service includes central office switching equipment necessary for in-dialing from the network directly to stations associated with customer premises switching equipment.
3. DID service is provided only from electronic central offices or from electromechanical offices that are equipped to provide this service.
4. The assignment of telephone numbers for DID service and the sequence of numbers assigned to a customer are made at the discretion of the Company.
5. Customer-Provided Switching Systems must handle calls to all assigned numbers, including those that are not currently used with specific stations. Calls to numbers not currently used with specific stations must be routed by the customer to a recorded announcement referring the caller to another number.
6. If DID service is provided from more than one central office, service from each central office is considered separately for the application of rates and charges.
7. If a customer uses sets of DID service telephone numbers on different systems, on the same or different premises, each set of numbers is considered a separate service for the application of rates and charges.
8. One primary listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified elsewhere in this tariff.

TELEPHONE EXCHANGE SERVICE

DIRECT INWARD DIALING

A. GENERAL (Continued)

9. Limitations of Service

- a. DID is furnished upon condition that the customer contract for adequate facilities to permit the use of the service without injurious effect upon the general telephone service. Adequate facilities include, but are not limited to, the following:
- (1) Central Office trunks - if subscriber line overflows on all of the DID trunks combined exceed the monthly limit specified as follows for two consecutive months, and in the opinion of the Company additional trunk lines are needed, the customer will be required to subscribe for such additional trunk line facilities or terminate the existing service: first trunk line in a group - 200 subscriber line overflows per month; each additional trunk line in the same group - 100 additional subscriber line overflows per month.
 - (2) a minimum of two working DID trunks excluding attendant trunks are required per system.
 - (3) For completion of DID calls including call attempts (where the line is busy or no answer) suitable equipment associated with the Company or customer-provided system is required, e.g., sufficient quantities of incoming registers or equivalent.
- b. The Company may refuse to furnish or to continue to furnish service for failure to comply with 10.a above and as covered in General Regulations - Cancellation for Cause in Tariff M.P.S.C. No. 7.

10. Termination Liability

- a. In the event DID Service is terminated by the customer prior to the completion of the initial term commitment period, the customer shall be liable for payment of termination liability charges as set forth in Tariff M.P.S.C. No. 7R, GENERAL REGULATIONS, TERMINATION LIABILITY.

C. DIRECT INWARD/OUTWARD DIALING SERVICE (DIOD)

1. General

- a. Direct Inward/Outward Dialing (DIOD) Service is a central office based service that permits incoming calls to reach customer provided equipment, without the assistance of an attendant, and allows the trunk to be used to place outgoing calls. Rotary Service does not apply.

2. Conditions

- a. The assignment of telephone numbers and the sequence of numbers to a customer are made at the discretion of the Company. All terms and conditions pertaining to DID Service are applicable to DIOD Service.
- b. This service is subject to the availability of existing equipment and facilities.
- c. Customized Multi-line Telephone Service is exempt from this offering. (T)
- d. Trunks arranged for DIOD Service may not be combined with trunk groups arranged to provide DID Service. Overflow of calls between the two arrangements is not permitted.
- e. Where the DIOD Service is provided from a different central office area of the serving exchange, interoffice mileage charges and measurement as specified elsewhere in this Tariff will apply.
- f. Where the DIOD Service is provided from a different exchange area, the Special Transport and Special Access Line Charges apply for each interexchange channel as specified in M.P.S.C. No. 25R.
- g. Customers are required to subscribe/use current trunks as the basic access piece of DIOD trunks using the existing tariff rate. The DIOD Functionality Rate Element is an adder to the existing trunk rate(s).
- h. The customer is responsible for providing intercept on assigned unused telephone numbers associated with DIOD Service.
- i. In the event DIOD Service is terminated by the customer prior to completion of the initial term commitment period, the customer shall be liable for payment of termination liability charges as set forth in Tariff M.P.S.C. No. 7R, GENERAL REGULATIONS, TERMINATION LIABILITY.
