SECTION 3 – SERVICE OFFERINGS (Cont'd)
Calculation of Distance

Usage charges are based on the airline distance between the serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by area code and exchange numbers.

All calls are billed from the End User's serving wire center to the terminating point serving wire center. If a call must be transferred to another carrier for completion such that the mileage would be calculated otherwise, the End User will be informed that the rates for the call may not reflect the rates from the actual originating location and the End User must consent to the transfer.

The distance between the originating point and that of the destination point is calculated by using the "V" and "H" coordinates as defined by NECA Tariff FCC No. 4, in the following manner:

Step 1 – Obtain the "V" and "H" coordinates for the originating point and the destination point.

Step 2 – Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.

Step 3 – Square the differences obtained in Step 2.

Step 4 – Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 – Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 – Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers.

Formula:

$$\sqrt{\frac{(V_1 V_2)^2 + (H_1 H_2)^2}{10}}$$

Destinations State to State and Destinations Instate switched calls are non-distance sensitive, flat-rated, twenty-four (24) hours a day, seven days a week.

**Usage Charges**

Customers may subscribe to Destinations State to State or Destinations Instate switched service on either a Month-to-Month, one or two year Term Plan. The Customer's total monthly usage is charged at the applicable intrastate per minute rates set forth following. Frontier Destinations State to State and Frontier Destinations Instate switched inbound (8XX) and outbound service is billed in six-second increments, with a thirty-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. To calculate rounding, the raw usage charge for the call is calculated as the call duration (minimum plus fractional duration) multiplied by the 4-digit (\$0.XXXX) rate value. That amount is then rounded up to the nearest whole cent.

Frontier Destinations State to State and Destinations Instate Term Plans will automatically renew for successive twelve (12) month periods, and will continue to renew for additional one year periods at the then current tariffed rates in effect for a one or two year term unless the Customer notifies the Carrier in writing 60 days before the end of their current term of their intention to terminate the agreement at the completion of the term. During the term, rates may be changed for the plan with 30 days notice. If the rate is an increase, customers will have 30 days from the date notified to make a change or cancel their long distance contract without penalty.

A customer may change between any currently available Frontier term plan without penalty if the term commitment for the new plan is equal or longer than the remaining term commitment of the old plan

A termination fee, equal to the Number of accounts cancelled multiplied by the number of months remaining on the contract multiplied by \$50.00, will be assessed when a Destinations State to State and Destinations Instate Customer terminates service prior to the completion of the then current term.

**Ancillary Services**

An additional per call surcharge will be assessed on all calls placed for intrastate Directory Assistance. Frontier calling cards may be used in conjunction with this service.
